

Amendment to HB 1071

1 Amend RSA 358-T:1, VI as inserted by section 2 of the bill by replacing it with the following:

2

3 VI. "Necessary software updates" mean security updates to patch exploits that, if left
4 unaddressed, leave the user vulnerable to cyber crime. Necessary software updates may include bug
5 fixes, patches, corrections, or other modifications to software which do not necessarily add enhanced
6 features or performance characteristics released by the original equipment manufacturer or
7 operating system developer.
